Dear Sir or Maam:

I benefit from listening to XM Satellite Radio and its traffic and weather channels. I drive to various clients several times a day and am constantly listening to the traffic and weather provided by XM radio. XM satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve as a loyal and paying customer. Thank you for your time.

Sincerely,

Jeff Mull
